-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 4 and 15-17 are objected to because of the following informalities: the following changes should be made for clarity, and not to change the claim scope. Claim 4, line 5, -- and transmitting current -- should be inserted before the semicolon. Claim 15, line 5, -- having the male receptor plugs -- should be inserted after "end". Claim 16, line 5, -- having the female receptacle holes -- should be inserted after "end". Claim 17, line 9, -- female -- should be inserted before "receptor". Appropriate correction is required.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Muhlenkamp 2005/0022338 in view of Neroni et al 4473923.

Muhlenkamp substantially discloses the claimed invention, including female connection end 16 with contacts 44, 46, and male connection end 14 with contacts 34, 36. Muhlenkamp, however, does not disclose the contacts as being female and male, respectively. Neroni et al discloses vacuum cleaner hose connections utilizing female receptor holes 53 and male receptor plugs 50, and to provide Muhlenkamp with same thus would have been obvious, to facilitate the electrical connection between hoses.

Claims 4-18 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record, particularly the applied art, discloses or teaches a vacuum cleaner

hose connection system with female receptor holes and male receptor plugs, wherein connector is made therebetween by rotating either the female or male connection end about the longitudinal axis thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The other references cited on Form 892 disclose similar vacuum cleaner hose connection systems.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary F. Paumen whose telephone number is 571-272-2013. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paula Bradley can be reached on 571-272-2800, ext. 33. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
